REPRESENTING THE FINEST MANUFACTURERS WITH HONESTY & INTEGRITY

ABS-SULZER PUMPS

Drypit & Submersible non-clog, Grinder, Solids-Handling, Dewatering, Axial Flow, Packaged Basin Pump Stations and Controls. Utilizing the Patented & Proven Contra-Block Technology for clogging situations.

ABS-SULZER HST TURBO BLOWERS

HST Turbo Compressors incorporates magnetic bearing technology that provides Very High Efficiency, Reliability, Durability, Low Noise & Low Lifecycle Costs.

ABS-SULZER MIXERS/AERATORS

Submersible Self-Aspirating Aerators & Mixers. Benefits of Lubricate for Life, Solid Deflection Ring, Lubrication for Life, Energy Efficient, Low Maintenance & Operating Costs.

JOHNSTON PUMPS

Vertical Turbine, ANSI & Split-Case Pumps. Johnston Pumps offers highly efficient and extremely durable equipment in a wide range of capacities for a wide range of applications.

A Sulzer Brand

BIOWORKS / AWT

Specializing in treatment systems utilizing biological processes to remove pollutants resulting in a high quality treated effluent. Technologies include: Continuous Fill Batch Reactor Plants, Advanced SBR Systems, Suspended Fine Bubble Aeration & Control Systems.

ATARA EQUIPMENT LTD.

Conveyor equipment: Shaftless, Live Bottom, Vertical, Screw, Screw Compactors, Drainage & Silo. Additional equipment offerings: Screening Press, Screw Feeders, Slide Gates, Vertical Grit Classifier, Grit Chamber & Washer Compactor .

BIOREM

Specializing in Odor, VOCs & hazardous air removal systems. Biofilters, Bio-Sorben® media, Basy System, Skid Mounted Systems, Bio-Trickling Filters, Moisture & Bio-Gas Conditioning Systems.

BIOREM - FILTER SYSTEMS

Treatment of air flows from 100-500,000 cfm of air. Systems are available in numerous sizes, shapes & configurations. Integrates permanent Bio-Sorben® media into modular units or large, custom design systems for any treatment process.

CONTINENTAL CARBON GROUP

Specializing in Carbon Based Odor Control, Air and Water Filtration Systems. Reliable and effective way of treating odorous compounds. Exclusive manufacturer of Calgon Carbon odor control systems in the U.S.

WATER FILTRATION SYSTEMS

Continental Carbon Group designs and manufactures carbon filtration systems specifically for the water industry. Complete systems include the design, vessels and carbon media.

CALGON UV

Over 25 years of UV Disinfection experience. *Sentinel*® In-Line Systems treats water from 0 to 40 MGD range flows. Open Chanel Systems utilizes efficient low pressure, high output lamps that requires less lamps per system.

ENBIORGANIC

Innovative microbiological treatment system for wastewater treatment municipalities. Individual biological dosing systems placed strategically along the collection system to increase bacterial growth improving plant efficiency.

ENVIRODYNE - WASTEWATER EQUIP.

Specializing in Clarifiers, Hercules™ Drive Units, Gravity Thickeners, Flocculators, Brush/Disc Rotor Oxidation Ditches, Algae Cleaning System, Grit System, SBR & DAF's.

ENVIRODYNE - DIGESTION EQUIP.

Specializing in Rotary Drum Thickeners, Belt Filter Presses, Anaerobic & Aerobic Digesters, Draft Tube Mixers, Vertical Motion Mixer, Gas Mixing System and Sludge Bagging Systems.

GLASS · STEEL, INC.

Offering FRP products including: Clarifier troughs, baffle walls, weir plates, walkable launder covers, stop logs, stamford & scum baffles, ladders, parshall flumes, walkway and handrail systems.

IEC, INC.

Specializing in cover and liner systems including: Clarifier Launder Covers, Gas Storage Systems, Clarifier Covers, Odor Control Covers, Tank Cover. Lagoon and Pond Liners.

REPRESENTING THE FINEST MANUFACTURERS WITH HONESTY & INTEGRITY

FORSTA FILTERS

Forsta offers self cleaning water filters that are low maintenance, highly efficient and dependable. Utilized in the water industry, including wastewater markets during the secondary & tertiary phase.

LIGHTHOUSE FILTERS

Specializing in water filtration systems for primary, secondary and tertiary systems. Product offerings include Plate Clarifiers and Volcano Sand Filters.

MASS TRANSFER SYSTEMS

Jet Aeration, Jet Mixing, Self-Aspirating Submersible Aerator, Floating Effluent Decanters, Radial Pod Aerators, Liquid Recirculation Pumps, Air Blowers.

PRO-WATER SYSTEMS

Specializing in customized wastewater treatment systems. Containerized Models with flow capacities between 3,000 gpd to 100,000 gpd. Field Installed systems up to 0.5 MGD.

STANDARD SOLAR

Standard Solar is a leading solar developer with over 1,500 installations. Full service support includes: design, engineering, installation, financing & operation/maintenance. Ground, Roof or Parking Mount Systems are available.

TANKS - DATA DESIGN SERVICES

ASSMAN - Polyethylene & Plastic tanks
Belding Tank Tech. - FRP & Stainless Steel Tanks
Composites USA - FRP Duct, Tanks, Stacks & Pipe

RF VALVES

RF Valves offers high quality Pinch and Knife Gate Valves in manual, hydraulic, pneumatic & motorized settings. USA Headquarters locally in Hanover, MD.

VENT-O-MAT

Cutting edge air release valves that outperforms competitors. Utilizes HDPE floats with no mechanical components. Standard ARV functions include: fill venting, vacuum break, continuous venting, surge alleviation and water hammer protection.

VOGELSANG - PUMPS

Specializing in the design of Rotary Lobe and Progressive Cavity Pumps for transferring viscous to abrasive sludge. Rotary pumps utilize HiFlo® lobe technology designed for increased capacity at lower RPMs that results in premium durability & reliability

VOGELSANG - GRINDERS

XRipper® models are designed with superior technology to be robust, durable and service friendly. Their monolithic ripper rotors result in 50% fewer wet-end parts. Models for In-Line piping, In-Channel, Wall Mounted & Hopper feed applications. In-Line Macerators are also available.

WSI INTERNATIONAL

Designs custom waste water treatment package systems with over 30 years of experience. WSI can assist in pre-built or new installations. WSI offers multi staged DAF systems for maximum TSS removal.

WASTEWATER TECHNOLOGIES

Complete Packaged Water Treatment facilities. Biorotor™ biological treatment system, BioDISC™ tertiary filtration systems, MBR Process Systems and Oil-Water Separators.
