## REPRESENTING THE FINEST MANUFACTURERS WITH HONESTY & INTEGRITY

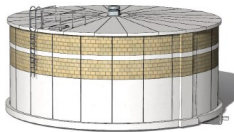

### DUTCHLAND, INC.

Specializes in the design, engineering, manufacturing, construction of high quality precast post-tensioned concrete water, wastewater structures and turn-key treatment plants. Numerous tank configurations are possible. A standard two year warranty is provided.

### RECTANGULAR PRECAST TANKS

Dutchland's pre-cast, post tensioned rectangular concrete tanks can be utilized for oxidation ditches, extended aeration, SBR systems, reactors, etc. Tanks can be differentially buried & include walkways.

### CIRCULAR PRECAST TANKS

Dutchland's pre-cast, post tensioned circular & elliptical concrete tanks can be utilized for several applications, including; water storage, clarifiers, CSO, digester, equalization, reactors, effluent, etc.

*\* Southern NJ Only for Municipal Applications. All NJ for Industrial applications.*

### ENVIRODYNE SYSTEMS INC

Founded in 1971, Envirodyne designs & manufacturers a full range of high quality water and wastewater equipment. Locally engineered in Camp Hill, PA.

**Digestion Equipment:** Specializing in Rotary Drum Thickeners, Belt Filter Presses, Anaerobic & Aerobic Digesters, Draft Tube Mixers, Vertical Motion Mixer, Gas Mixing System and Sludge Bagging Systems.

**Wastewater Equipment:** Specializing in Clarifiers, Hercules™ Drive Units, Gravity Thickeners, Floculators, Brush/Disc Rotor Oxidation Ditches, Algae Cleaning System, Grit System, SBR & DAF's.

### ESMIL GROUP

Formerly Ekoton, experienced manufacturer providing Multi-Disc Screw Press Dehydrators, Tube Air Diffusers, DAF-Units, Screening Systems, Belt Filter Presses, Chain Scraper for horizontal flow clarifier and Belt Thickeners.

### EXCEL FLUID GROUP

Providing innovative packaged pump station solutions to fit a variety of applications. EFG is a premier manufacturer of submersible, water booster, chemical and no-vault stations. Stations are custom designed with controls along with basin materials options including HDPE, FRP or Pre-Cast Concrete

### IEC, INC.

Specializing in cover and liner systems including: Clarifier Launder Covers, Gas Storage Systems, Clarifier Covers, Odor Control Covers, Tank Covers, Lagoon Liners, Pond Liners and Quick-Stairs Stairway System for access on linen and unlined slopes.

*\*\* Northern NJ Only*

### STANDARD SOLAR

Standard Solar is a leading solar developer with over 1,500 installations. Full service support includes: design, engineering, installation, financing & operation/maintenance. Ground, Roof or Parking Mount Systems are available.
